Summary

As a skilled front-end web developer, I am proficient in HTML, CSS, JavaScript, and various frameworks and libraries such as React and SASS. I have completed relevant coursework in web design and development, and have worked on several personal and academic projects that demonstrate my ability to create responsive and user-friendly websites. I am a problem-solver with strong attention to detail, and have experience working collaboratively with teams to deliver successful projects. With a passion for creating clean and modern designs, I am committed to staying up-to-date with the latest industry trends and technologies.
